Steel Lift Tilt Truck 21 in x 45 in Forks 1500 lb Capacity Yellow/Black

MODEL LTT-2145

Ergonomic Solutions / Lift & Tilt High Lift Pallet Truck

PRODUCT OVERVIEW

A lift and tilt pallet truck is an outstanding addition to a variety of production environments. The hand pump lever functionality gives the user control over the precise height movements of the forks. With a wide service range, items both large and small can be loaded and unloaded at a height that best fits the users preference. For items that may need added stability, the tilting function is available. The tilting function can be used up to 20 degrees tilt for extra steadiness. Steel construction with a powder coat finish for added baked in toughness. For use with open bottom pallets and skids only.

KEY FEATURES

- Dual driving handles
- Hand pump function raises and lowers forks
- Tilting function stabilizes unsteady items
- Poly wheels for smooth transitions
